Dahnish,

Original comment deadline was September 7<sup>th</sup>. Did we get responses from everyone else?

Dr. Zhu submitted his comments on Friday. We are wrapping up the draft compilation report and can get that over.

In regards to the final reviewer:

## Ex. 6 Personal Privacy (PP)

- Do you want us to send the compilation report with the current reviewer comments while we continue to look for the final reviewer? Yes please. A draft sometime this week would be great.
- Do you want to go forward with Dr. Smith/extend out the deadline? Let me check with Kris.

Dahnish,  
Quick update on the candidates:  
We continue to search for an in-vitro expert. To date we have contacted a total of 31 potential candidates for this expertise slot. At this point we are running into an issue of candidates with expertise are too closely related to the COI issues to be viable. I wanted to discuss with you further if you have some time Wednesday for a quick call.

On 9/3 we contacted the seven candidates listed below as well as sent a reminder earlier this week to those that hadn't replied yet:

## Ex. 5 Deliberative Process (DP)

## Ex. 5 Deliberative Process (DP)

## Ex. 5 Deliberative Process (DP)

The five selected reviewers are:

**Nan-Hung Hsieh, Ph.D.**

California Department of Pesticide Regulation

Expertise: PBPK modeling; Statistics; Global sensitivity analysis; Metabolic rates *in vitro*

**Kenneth M. Portier, Ph.D.**

Independent Consultant

Expertise: Statistics; PBPK modeling; Global sensitivity analysis

**Kan Shao, Ph.D.**

Indiana University

Expertise: Statistics; Global sensitivity analysis

**Raymond S. H. Yang, Ph.D.**

**Subject:** RE: In-Vitro Update for Peer Review of PBPK Modeling for Chloroprene

Hassan – All the candidates should likely be considered if available. Since we've been specifically trying to find someone with in vitro ADME experience, EPA would lean towards those with that type of lab experience. Knowledge of PBPK is a definite plus, but they all seem to have some of that.

**Subject:** In-Vitro Update for Peer Review of PBPK Modeling for Chloroprene

Good afternoon Dahnish and Dustin,

I am writing to provide another update. We continue to search for an in-vitro expert. To date we have contacted a total of 31 potential candidates for this expertise slot. On Friday (9/3) we identified and contacted the seven additional candidates listed below:

## Ex. 5 Deliberative Process (DP)

We just wanted to run the names by you to perhaps get some initial insight on names that may raise COI flags or other issues. So far two people have declined (Drs. Ashton and Yan). The remaining candidates have not responded yet. In addition, we recontacted Dr. Jordan Smith from the original panel to ask if he would reconsider participating due to the timeline extension. He requested additional information regarding the level of effort and the new deadline; however, he has not responded after receiving that information.
